

## Deoriatal Chandrashila Trek

### About This Experience

Uttarakhand is known for its breathtaking flora and fauna. It offers a variety of larking treks with sights to behold. It's a common misconception that most Himalayan treks here are of difficult intensities and the Deoriatal and Chandrashila Trek proves our point. With a difficulty level of easy to moderate, this trek gives you more than what you actually work for. It definitely has something to offer for everyone- this trail will enthrall the soul of any birdwatcher for it as some of the most exquisite breeds of birds to watch. The snow makes the trek picturesque as ever alongside being an easy trek. The view gives you a peek at the most breathtaking peaks of Western and Eastern Uttarakhand

This trek is considered to be one of the most fulfilling ones in Uttarakhand. If you are a new trekker, this must be your first Himalayan trek. Read on to find out more about the trek.

## THINGS TO CARRY

- **Day backpack (20–30 Ltrs):** You will leave your larger backpack at your intended stay because you will only need to carry a few essential items when you are on a local sightseeing tour.
- **1 pair of thermals:** Thermals are clothing items that keep your body warm in cold weather. You must bring it with you when visiting cold climates.
- **Outdoor Shoes:** When travelling outside, especially in the mountains, you need to wear comfortable shoes. Instead of being heavy and bulky, they should be light and robust.
- **Sandals or Floaters:** A good pair of sandals or floaters will allow you to move easily while you are enjoying a leisurely day.
- **1 down jacket / main jacket:** It's important to carry the right layers to prevent getting cold, so you should also carry an insulated jacket you can wear on top of your other clothing.
- **3 Quick Dry Tees:** To ensure proper hygiene between stops, you must always have three or more pairs of quick dry tees on hand.
- **3 Pairs of Cotton Socks:** You can always rely on a good pair of cotton socks while travelling because they are lightweight and incredibly comfortable to move around in. However, if they are wet, remember to change them and don't wear them.
- **1 Pair of Woolen Socks:** Good woolen socks, particularly merino, are cozy, keep odors to a minimum, and offer enough insulation from the cold to be worn at night.
- **1 Poncho:** A poncho is a more advanced version of a raincoat that completely protects you from the rain by covering both your body and your bag.
- **Quickly Dry Towel:** A towel that dries quickly will aid in maintaining good hygiene. The fabric needs to dry quickly because staying wet will only increase the likelihood of bacterial growth.
- **Gloves:** Insulated gloves aid in keeping your hands at the proper body temperature.
- **Sanitizer:** Make sure you always have hand sanitizer on hand to reduce the risk of infections and to maintain good hand hygiene.
- **Sun Cap:** On a hot day, a lightweight sun cap with side flaps is ideal for keeping your head cool and preventing sunburns.
- **Lip balm:** It's important to keep your lips moisturized because the chilly winds can cause them to become chapped.
- **Cold Cream & Sun Screen (SPF 40+):** Cold cream and sunscreen are both necessary to prevent sunburns and chafing.
- **Water bottle (1 litre):** Staying hydrated is crucial when travelling. You must always have a water bottle on a day that you can fill up with Himalayan water.
- **Bag for all Your Toiletries:** You should carry a zip lock bag with all your necessities, such as paper towels, toothpaste, sanitizers, and soap.
- **Personal Basic Medical Kit:** It is necessary to travel with a medical kit that contains bandages, Dettol, and medications for headaches, nausea, etc.
- **People who wear glasses or sunglasses:** (Use photochromic glasses rather than contact lenses): When exposed to sunlight, photochromic eyewear is intended to change into anti-glare sunglasses. They are effective for protecting the eyes, but one can also choose clip-on glasses, etc.
- **Mobile charger or power bank:** Even though most places have electricity, it's always a good idea to have one with you in case of an emergency.
- **Documents:** Identification documents such as a driver's licence and an Aadhar card.
- **Extra Polythene:** You can carry your clothing in polythene in case it gets wet or doesn't dry. However, be sure to take all of the plastic that you brought with you into the forest. Avoid leaving behind trash.
- **Camera:** This ought to be clear, to ensure you get to record all the memorable moments from your journey. Check to see if you have enough storage and extra batteries.

## ADDITIONAL INFORMATION

### • How is the Trip /Trek Organised?

For the proper organization of Backpacking Trips and Himalayan treks, **Plan the Unplanned team is associated with a local experienced team that's registered with ATOAI (Adventure Tour Operators Association of India)**

Moreover, we have been working with them for 10 years. Their highly skilled staff with 20+ years of experience, professional local guides and BMC certified trek leaders are the reasons for our continuing partnership with them. The team shall manage all operations, medical and mechanical backup starting from the base location.

Only when we have over 8 bookings from Bangalore, do we send our leaders from Bangalore.

**Note:** To properly utilize resources, a batch from PTU is clubbed with trekkers who originally book with the local team. This is how all trekking organizations manage their treks. An exclusive PTU batch is only formed when we have a majority of bookings ( over 8 and above ) from PTU
